

Ikarus::ArcLength::
initialPrediction

Ikarus::ArcLength::
operator()

Ikarus::idbcIncrement

```
graph LR; A["Ikarus::ArcLength::initialPrediction"] --> C["Ikarus::idbcIncrement"]; B["Ikarus::ArcLength::operator()"] --> C;
```

The diagram consists of three rectangular boxes. On the left, there are two boxes stacked vertically. The top box contains the text 'Ikarus::ArcLength::initialPrediction' and the bottom box contains 'Ikarus::ArcLength::operator()'. Both of these boxes have a black border. On the right, there is a single box containing the text 'Ikarus::idbcIncrement', which has a gray fill and a black border. Two blue arrows originate from the right side of the left boxes and point towards the left side of the right box. The top arrow starts from the right side of the top-left box and points to the top-left corner of the right box. The bottom arrow starts from the right side of the bottom-left box and points to the bottom-left corner of the right box.
