

Ikarus::Python::register
DirichletValues

Ikarus::DirichletValues
::setZeroAtConstrainedDofs

Ikarus::DirichletValues
::isConstrained

```
graph LR; A[Ikarus::Python::registerDirichletValues] --> C[Ikarus::DirichletValues::isConstrained]; B[Ikarus::DirichletValues::setZeroAtConstrainedDofs] --> C;
```

The diagram illustrates a dependency or relationship between three code elements. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'Ikarus::Python::registerDirichletValues'. The bottom box contains the text 'Ikarus::DirichletValues::setZeroAtConstrainedDofs'. On the right, there is a gray rectangular box containing the text 'Ikarus::DirichletValues::isConstrained'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both functions on the left depend on or interact with the 'isConstrained' function on the right.
