

RT

Ikarus::ResultWrapper
< RT, storedResultShape >

```
graph BT; A[Ikarus::ResultWrapper< RT, storedResultShape >] --> B[RT];
```

The diagram illustrates a relationship between two classes. At the bottom is a gray rectangular box containing the text 'Ikarus::ResultWrapper' followed by a line break and '< RT, storedResultShape >'. A solid blue arrow points vertically upwards from the top center of this box to the bottom center of a white rectangular box above it. The white box contains the text 'RT'. This visualizes that 'Ikarus::ResultWrapper' inherits from or is a specialization of 'RT'.
