

Ikarus::AssumedStress
::calculateAtImpl

Ikarus::AssumedStress
::setAssumedStressType

Ikarus::AssumedStress
::numberOfInternalVariables

```
graph LR; A["Ikarus::AssumedStress::calculateAtImpl"] --> C["Ikarus::AssumedStress::numberOfInternalVariables"]; B["Ikarus::AssumedStress::setAssumedStressType"] --> C;
```

The diagram illustrates a dependency or data flow. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'Ikarus::AssumedStress::calculateAtImpl' and the bottom box contains 'Ikarus::AssumedStress::setAssumedStressType'. On the right, there is a gray rectangular box with a black border containing the text 'Ikarus::AssumedStress::numberOfInternalVariables'. Two blue arrows point from the right side of each white box to the left side of the gray box, indicating that both functions on the left depend on or provide data to the variable on the right.
