

Ikarus::Materials::
VanishingStrain::stressesImpl

Ikarus::Materials::
VanishingStress::stressesImpl

Ikarus::toVoigtAndMaybeReduce

Ikarus::removeCol

```
graph LR; A["Ikarus::Materials::  
VanishingStrain::stressesImpl"] --> D["Ikarus::removeCol"]; B["Ikarus::Materials::  
VanishingStress::stressesImpl"] --> D; C["Ikarus::toVoigtAndMaybeReduce"] --> D;
```

The diagram illustrates a dependency or data flow. Three source boxes on the left point to a single target box on the right. The first two source boxes are stacked vertically and contain the text 'Ikarus::Materials::' followed by 'VanishingStrain::stressesImpl' and 'VanishingStress::stressesImpl' respectively. The third source box is below them and contains 'Ikarus::toVoigtAndMaybeReduce'. The target box, which has a light gray background, is positioned to the right and contains 'Ikarus::removeCol'. Blue arrows connect each source box to the target box.
