

Ikarus::toLamesFirstParameter
AndShearModulus

Ikarus::toYoungsModulusAnd
PoissonsRatio

Ikarus::convertLameConstants

```
graph LR; A[Ikarus::toLamesFirstParameter AndShearModulus] --> C[Ikarus::convertLameConstants]; B[Ikarus::toYoungsModulusAnd PoissonsRatio] --> C;
```

The diagram illustrates a data flow where two separate input boxes on the left point to a single output box on the right. The top input box contains the text 'Ikarus::toLamesFirstParameter AndShearModulus'. The bottom input box contains the text 'Ikarus::toYoungsModulusAnd PoissonsRatio'. Both boxes have black borders. Two blue arrows originate from the right side of these boxes and point towards the left side of the output box. The output box, located to the right of the input boxes, has a gray fill and a black border, and contains the text 'Ikarus::convertLameConstants'.
